? Question of the day

Who deserve your seat and why?

❖ If someone else were to take your place/position, who would it be and why?

📖 Topic of the Day:

- Homophones
- Homographs
- Homophenes

1. Homophones

✓ **Definition:** Words that *sound the same* but have *different meanings* — and often *different spellings*.

✓ **Key Point:**

- Same pronunciation, different meaning/spelling.
- The suffix "**-phone**" means "**sound**", helping you remember that homophones are about pronunciation.

✓ **Examples:**

- Two, to, too
- Write and right
- Sea and see
- *Mail / Male*
- *Berry / Bury*
- *Be / Bee*
- *Night / Knight*
- ♦ "I want to see the sea."

2. Homographs

✓ **Definition:** Words that are spelled the same but have different meanings — and pronounced differently.

✓ **Key Point:**

- Same spelling, different meaning/pronunciation.

-
- The suffix "-graph" means "**writing**", so homographs are about spelling.

✓ **Examples:**

- *Lead* (to guide) / *Lead* (a metal) → different pronunciation
 - *Tear* (rip) / *Tear* (from the eye)
 - *Bow* (to bend forward) / *Bow* (used with arrows)
 - *Wind* (air) / *Wind* (to twist)
 - *Live* (to exist) / *Live* (happening now)
- ♦ "She shed a tear over the tear in her dress."

3. Homophones

✓ **Definition:** they are spelled the same, sound the same, but have different meanings.

✓ **Key Point:**

- Same spelling, pronunciation but different meaning.
- "Homonym" is sometimes used broadly to refer to both homophones and homographs.

✓ **Examples:**

- *Bat* (animal) / *Bat* (sports)
- *Left* (direction) / *Left* (past of leave)
- *Right* (correct) / *Right* (direction)
- *Letter* (alphabet) / *Letter* (mail)

Term	Same Sound	Same Spelling	Different Meaning	Examples
Homophones	✓ Yes	✗ No	✓ Yes	Mail/Male, Be/Bee
Homographs	✗ No	✓ Yes	✓ Yes	Wind/Wind, Bow/Bow
Homonyms	✓ Yes	✓ Yes	✓ Yes	Bat, Left, Right, Ring

Mind the Topic

Look at the suffixes:

Phone = Sound → Homophones (same sound)

Graph = Write → Homographs (same spelling)

Nym = Name → Homonyms (same name/form)
