

LEARN, SPEAK, SHINE!

QUESTION OF THE DAY

- ✓ Every student answers one question.
- ✓ Builds confidence and gives equal chance to all.

SENTENCE FORMATION PRACTICE

- ✓ Create your own sentences.
- ✓ Improves grammar + vocabulary

SPEAKING ROUND

- ✓ Share your answers aloud.
- ✓ Boosts fluency & removes hesitation

FEEDBACK & CORRECTIONS

- ✓ Trainer guides on grammar & pronunciation.
- ✓ Encourages progress with positive motivation

English Proficiency Program

INTERACTIVE | PRACTICAL | CONFIDENCE-BUILDING

OCTOBER 28

English Batch 02:30 PM

Tutor: Sapna Gupta

Pendown: Keen Learner

Question of the day

What's the one thing you're most afraid of?

- ❖ What single thing scares you the most — the thing that gives you the greatest fear.

Spotlight Theme: “Mindset”

A growth mindset—You have the power to choose your mindset. Believing in growth leads to positive transformation.

Mindset means the set of beliefs and attitudes you have about yourself, your abilities, and how you approach challenges or learning.

It shapes how you think, feel, and act in different situations — especially when facing difficulties or failures.

There are two main types of mindsets: Fixed Mindset and Growth Mindset.

1. Fixed Mindset

A fixed mindset is when you believe that your intelligence, talent, or abilities are unchangeable — something you are born with and cannot improve.

- fixed mindset assumes that intelligence and abilities are unchangeable
- A fixed mindset **believes abilities are static — one cannot change or improve much.**

2. Growth Mindset

A growth mindset is when you believe that your abilities and intelligence can be developed through effort, learning, and practice.

- Growth mindset helps in **overcoming challenges** in life.

-
- It allows us to **see problems as opportunities** for learning and self-improvement.
 - Belief: **Abilities can develop through effort, learning, and persistence.**

The Story of the Twin Brothers

❖ Influence of Environment

Their contrasting outcomes highlight how mindset, not circumstances, defines success.

- Both twins faced the same environment but **interpreted it differently** based on their mindset.
- The **alcoholic twin** saw his father's behavior as **a fixed destiny**, leading to hopelessness.
- The **successful twin** viewed it as a **lesson**, inspiring him to change and grow.

The Reason Behind Their Different Outcomes

- Alcoholic twin (**Fixed Mindset**):

"My father was an alcoholic, so I will be too."

- Successful twin (**Growth Mindset**):

"I saw what alcohol did to my father, and I'll learn from it."

❖ Choosing Your Mindset

- We cannot control our **circumstances**, but we can control our **responses**.
- Developing a **growth mindset** requires **effort, reflection, and belief in self-improvement**.
- Recognizing that **intelligence and skills evolve** builds **resilience** and encourages positive action.

Lessons Learned

- A **growth mindset** turns **obstacles into opportunities**.
- Mindset shapes destiny — not genes or surroundings.
- A growth mindset **helps us** learn, adapt, and rise **above challenges**.
- Success depends less on talent and more on **effort, learning, and perseverance**.

-
- Our **beliefs shape our actions**, and actions shape our **results**.
 - Even in adversity, we can choose to **grow, learn, and move forward**.

“Every challenge is a chance to evolve.”
