

# LEARN, SPEAK, SHINE!

## QUESTION OF THE DAY

- ✓ Every student answers one question.
- ✓ Builds confidence and gives equal chance to all.

## SENTENCE FORMATION PRACTICE

- ✓ Create your own sentences.
- ✓ Improves grammar + vocabulary

## SPEAKING ROUND

- ✓ Share your answers aloud.
- ✓ Boosts fluency & removes hesitation

## FEEDBACK & CORRECTIONS

- ✓ Trainer guides on grammar & pronunciation.
- ✓ Encourages progress with positive motivation

## English Proficiency Program

**INTERACTIVE | PRACTICAL | CONFIDENCE-BUILDING**

**NOVEMBER 8**

English Batch 02:30 PM

Tutor: Sapna Gupta

Pendown: Keen Learner

## Spotlight Theme: “Self-Control”

Learning to wait for better rewards builds character, focus, and perseverance.

### The Marshmallow Test – Delayed Gratification and Self-Control

#### Concept

- The experiment explores **delayed gratification** — choosing future rewards over immediate pleasure.
- It demonstrates the importance of **self-control** in decision-making.

#### The Experiment

- Children are given **one marshmallow** and told they can **eat it now** or **wait** to receive **two marshmallows** later.
- The test observes how long children can **resist temptation**.

#### Observations

- Some children eat the marshmallow **immediately**—choosing immediate-reward over waiting.
- Others **resist** the immediate temptation—choosing to wait for the larger reward.
- Their reactions reveal differences in **self-control and emotional regulation**.

## Findings

- Children who **delayed gratification** often showed:
  - Better **academic performance**
  - Higher **emotional stability**
  - Greater **self-discipline** in adulthood

## Practical Life Lessons

- ❖ The idea isn't just about "waiting for candy," but applies to real-life situations like:
  - Choosing to **study instead of watching TV**
  - **Saving money** instead of spending it right away
  - **Working hard now** to enjoy bigger rewards later
- ❖ To build self-control, one must:
  - **Recognize temptations** (like the urge to scroll social media or buy impulsively)
  - **Consciously choose** to resist
  - **Use strategies** such as distracting yourself, changing how you think about the situation, or keeping your focus on the long-term goal

## Application & Reflection

- ❖ **Practical takeaways** for different people:
  - **Parents/Teachers:** Should *teach how* to wait (e.g., show patience, create small waiting exercises), not just say "wait."
  - **Individuals:** Should reflect on their own habits — where they give in too quickly and where waiting could lead to better results.

- **Communities:** Can help by promoting values like **patience, discipline, and moral integrity**, instead of quick or easy gains.

**“Self-control is a key predictor of future success.”**
